Letter of Recommendation

I would like to use this opportunity to congratulate Steve and his staff at SR& J for the excellent job they are doing for us. WSI Winnipeg is operated by Pecunia Non Olet Corp and part of the world's largest network of internet consultants. Even though WSI has lead generation companies within the system, we opted to use a local firm. SR&J left us we a good feeling after the first meetings and has delivered on their promises.

We started working with SR&J in late Spring 2006 in order to find new leads for WSI. SR&J found the lists for us as part of our agreement and has been calling on a regular basis for us. The initial cost per lead was exactly as budgeted, however during the last month the cost per lead supplied by SR&J has dropped considerably. We attribute this to the increase experience and training of the SR&J call center employees. We are expecting to increase business with SR&J over the next year as we expand further.

Keep up the good work.

Ralf Klenke
Certified Internet Consultant
WSI – Internet Consulting & Education
President Pecunia Non Olet Corp.
